

# BACKUP POWER REDEFINED

## POWERWALL

### Lithium Battery Pack

YES Electromotive's Powerwall is a reliable back up power solution intended for use with UPS, Solar and other back up systems. It features Lithium Iron Phosphate prismatic cells and a smart Battery Management System. Cell monitoring and balancing is done on real time basis and data is available over Bluetooth or Wi Fi.

With a strong current delivery, long life and built-in safety features our powerwall is an ideal solution for new installations and retrofits.
